Dear Mr. Weisberg:

I was startled that the Wheat material was not sent to you. I had thought my associate sent this to you long ago, and I shall see that you get it soon. Fortunately, there is nothing there of great importance; it merely affirms what already was known about Wheat.

You might write the Redding (Calif.) Record-Searchlight. I understand they had a couple of articles on Wheat, which I have not yet seen.

Your Joe Pyne Show appearance made it up here a week and a half ago. I thought you did a fine job. I was quite surprised that Pyne conducted himself in such a civilized manner.

Keep up the good work.

Sincerely yours,

George E. Rennar
